Olivia Garden®

NanoThermic Styling Brushes

- Lightweight, snag-free, anti-static for effortless styling through NanoThermic Technology.
- Brushes that heat up faster and retain heat longer giving better styling and eliminating frizz, providing shiny long lasting results.

Getting Holiday Ready

November is about giving thanks, preparing for the holidays, and not forgetting to pamper ourselves, which many of us do during the busy holiday season.

Tips for quick styles, day to night.

- Try weightless volumizing products to give your hair longer lasting style.
- For the cooking hostess wanting to keep her hair manageable, and off the face, try a sleek wet style from short to long, such as a triple braided pony or a gel'd, slicked back short style.
- How-To: 3 braids tied at the nape of the neck, braided into one braid, creates a textured and stylish look. Second day look, take out the braids, shake up the hair with a dry volumizing shampoo for a fun crimped look.

Winter Color Tip: Many woman feel washed out as they may be paler during the season due to lack of sun and grayer light. Adding richer hues or depth to a hair color can add warmth or a glow to the skin.

Blondes adding strawberry or honey beige to a warm blonde will create a blush to the skin.

Brunettes with a pale yellow undertones look best with rich chocolates to warm up their complexion

Red Heads, cool reds compliment pale cool skin with blue eyes. Warm reds compliment pale warm skin with green or brown eyes.
